

Concerned Citizens for Improved Transportation

Are you interested in the *quality* and *quantity* of our area's public transportation services? If so, Concerned Citizens for Improved Transportation is a group for you!

Having its roots in the aftermath of the 1996 defeat of a proposal for county wide service, CCIT has worked hard to expand area transportation service levels in addition to making sure that existing services are provided with the highest level of customer satisfaction. CCIT is working on:

- Achieving the priorities within ***Getting There Together*** (see www.dakc.us for full text).
- Monitoring and being engaged in the activities of the Kent County public transportation study which will occur throughout 2009.
- Continue to advocate for adequate state transit funding, both for operating support and capital match.

Please join us as we are:

“Working to achieve a universally accessible, area-wide public transportation system.”
